Follow-up: Physical Security at the Office of Disability Adjudication and Review's Headquarters Building (Limited Distribution) (A-12-11-21190)

Our objective was to determine the status of corrective actions the Office of Disability Adjudication and Review (ODAR) took to address recommendations in our March 2009 report, *Physical Security at the Office of Disability Adjudication and Review's Headquarters Building* (A-12-08-18072).

At the time of our review, ODAR had implemented 3 of the 16 security enhancement recommendations from our 2009 report. ODAR partially implemented 2 additional recommendations, but had not fully implemented these recommendations because of jurisdictional issues. Finally, ODAR was taking steps to implement the security enhancements for the other 11 recommendations. Some of the recommendations require coordination with the Department of Justice, Fairfax County, and other parties. To ensure the timely completion of physical security enhancements, we made two recommendations to the Social Security Administration. The Agency agreed with both recommendations.
